

Scented Sachet

A scented sachet makes a heartfelt gift.

Sew simple, in no time at all you can make a basket full of them for valentine giveaways.

Supplies Needed:

- Embroidery design - [Mosaic Heart](#).
- 1/4 yard of solid color fabric
- 1/4 yard of lace fabric
- 1/4 yard of tulle or bridal netting
- A cup of scented potpourri
- A yard of narrow ribbon

Instructions:

Sew out the embroidery design on the solid fabric.

Cut out the embroidery design, leaving about 1/4" to 3/8" around the perimeter of the design. This will be your seam allowance.

Use the cut-out design as a pattern piece to cut out the lace and net pieces.

Stack the pieces: First the embroidered fabric (right side up), then the lace piece, then the net on the top.

Stitch the pieces together along the very edge of the embroidery leaving a 2" to 3" opening for turning and stuffing.

Carefully turn the heart right side out. Be gentle and patient. The embroidered fabric is much stiffer than the net and lace. I scrunched the embroidered side to make it pliable enough to turn.

Fill the heart with scented potpourri and stitch the opening together to close.

Wrap with a ribbon bow to dress it up.
